Butt Fusion Welding of HDPE Pipes Work Procedure A pipeline is as good as its weakest point. Accordingly it is not only important that quality pipes and components are used in a piping system, but also the methodology used to join the pipes and other components. Butt Fusion is the most important and widely used method of connection for HDPE pipes larger than 110 mm. It is a method of jointing ...

The pipe welding techniques used and the procedure is also identical to the ASME section IX pipe welding certification. Since welding pipe in the 6G position covers all of the pipe welding positions the information on this page can be applied to welding pipe in any position. The 6G welding certification is far from easy to pass and has a lot involved. Because there is a lot involved this page ...
